

DC Food Security Committee

Wednesday, March 8.
5:30pm - Library
(Right before PAC meeting)

What is food insecurity/security?

Food insecurity is not having regular access to the foods that meet your basic needs.

Food security is not having to worry where your next meal is coming from.

A day without food

Approximately ten children at our school suffer from severe food insecurity*.

That means they regularly have days without any meals, let alone having their basic nutritional needs met.

How can we help?

There are programs and resources out there we can access. With your help, we can come up with ideas and work together to accomplish food security at DC.

Meeting Agenda

- Current Programs Running in our community.
- Grants, Resources, Community sponsorship.
- How can we make this work inside DC?

*Stats Can - 1.4 million children in Canada go without meals on a regular basis (severe food insecurity)
